The main objective of establishing BCC is to ensure the effective application and expansion of the use of information technology. In view of this BCC has been formulating appropriate policies and implementing them since its inception. The description and the lists depicting the steps taken and other activities are presented in the following sections.

1. Advisory Services

BCC as the organization of the government entrusted with the responsibility to deal with matters related to computerization, renders advisory services to different government departments, organizations and autonomous bodies. It has contributed in computerization of about one hundred and forty organizations during the period of 1990-91 to 2005-06. The list of organizations includes the ministries, directorates, projects, autonomous bodies, schools, colleges, and many other types of organizations. The year-wise list is given in

Annex-A.

2. IT- Based Training Courses

Computer related training is important in developing skilled manpower in information technology. Training has an important place among the activities of BCC. During the year 1990-91 to 1996-97 a total of three hundred and sixty one trainee has been trained under the training program. A large part of this group is the officials and staffs from government and autonomous bodies. Besides, the teachers of different schools, colleges and other educational institutions and private candidates took part in the training program.

3. Development Projects Taken And Implemented

Keeping in view a number of objectives, such as:

(1) Expansion of activities of BCC;
(2) Expansion of uses of computer and IT in the country;
